

LOGO USE for 3rd Party Events:

Please use the phrase “in support of” or “raising funds in support of” when advertising your event and ensure our logo is not distorted, squished, stretched etc. Our logo is inside a rectangular shaped area (white space) and other text or images should not encroach into that white space around the logo.

Our logo shouldn't be so large that it looks like the event is a Hospice event.

No part of the logo should be taken and used separately. Please ensure the colours stay true.

Our logo is designed for use on a white background. If your poster/advertising has a coloured background, we can provide you a copy of our logo with a white fuzzy backer (see example below).

In support of
